Build new IRF – You are the Expert

- Starting a new inpatient rehabilitation facility (IRF) requires meeting strict medical, regulatory, and design standards to provide intensive medical rehabilitation care.

Building an IRF house:

- Size
- Location
- Staff
- Patient populations
- Support Services
- EMR
- Key performance metrics

Core Regulatory and Medical Components

Intensive Therapy Program

Multidisciplinary Team

24/7 Nursing care

Pre-admission Screening

Individual Care Plan

Physical Infrastructure and Design Considerations

Therapy Gym and Equipment

Activities of Daily Living (ADL)

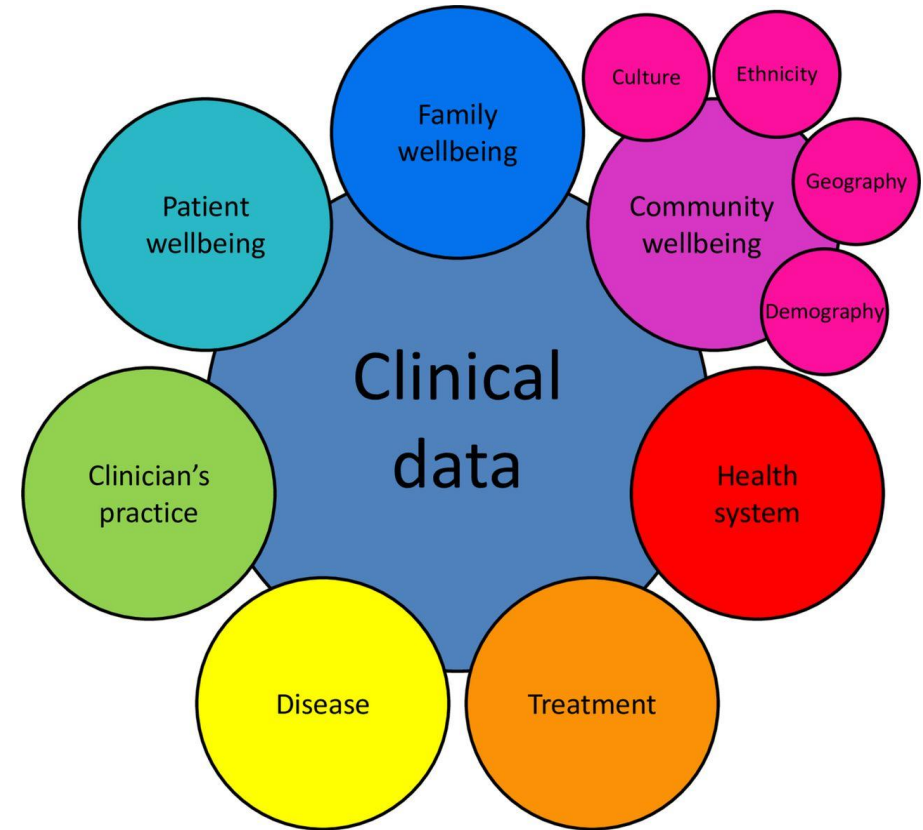

Accessible Patient Rooms

Safe Environment

Administrative and Compliance Requirements

Accreditation

Payer Compliance
and contracts
